The Westfalia Continental has long since been regarded by the "experts" as a conversion of unbeatable quality. It is manufactured in the largest and most modern Motor Caravan factory in Europe and sold throughout the World.

OPTIONAL INTERIOR FLOORPLANS

The furniture is built from a specially patented wood/cork laminate i.e. no "chipboard", this gives not only very light strong structure but one that is very durable. Finished as it is in "Forest Glen" it offers a very opulent but homely appeal. And now for the most important thing the price. Brought in as it is as a direct factory import the uncompromising quality and standard of equipment can be maintained at an unbeatable price thereby showing a saving from an equivalent vehicle of about £1,000.00.
